12:00	KA	946	Denpasar		
12:00	KA	3476			

Over
220
destinations

410,440
aircraft movements

4.6
million tonnes of
cargo

73,000
people working at HKIA

1,929
AAHK employees

PERFORMANCE AT A GLANCE

OUR PEOPLE

We aim to attract, develop and retain quality staff who share the same vision and passion to make HKIA the pride of Hong Kong.

Our human resources strategy focuses on fostering our corporate culture by strengthening staff development and engagement.

WORLD-CLASS GATEWAY

We are committed to strengthening HKIA's position as a world-class airport and Hong Kong's gateway to the world.

Safety, security & contingency planning

Ensuring the safety of our airport staff and the passengers travelling through HKIA remains our top priority. We also need to be well prepared to predict, prevent and respond swiftly to all potential disruptions and crises that may affect the smooth operation of HKIA.

Greenest airport

We adopt an 'airport-wide' approach to manage, reduce and mitigate HKIA's environmental footprint, with particular focus on solid waste, carbon and biodiversity.

Passenger experience

Our aim is to maintain our high service standards and provide a friendly, efficient and uniquely "Hong Kong" airport experience to our passengers.

HONG KONG PEOPLE'S AIRPORT

HKIA is more than a transportation facility, it is also an important resource contributing to the social development of Hong Kong.

Sustainable workforce

We are continuing our efforts to secure sufficient manpower for HKIA's current operations and planned expansion through enhancing working conditions, and attracting and nurturing talent for the industry.

Social contribution

HKIA contributes to the social development of Hong Kong through our strategic community investment and supporting the development of local technology.

OUR FUTURE AIRPORT

HKIA's principal purpose is to support the future development of Hong Kong.

Capacity enhancement

To meet Hong Kong's growing air traffic demand, we are expanding HKIA into a three-runway system. In the meantime, we are striving to enhance HKIA's existing two runway-system.

Economic contribution

We are committed to maintaining our leadership in air cargo and transforming HKIA into an "Airport City" at the heart of the Pearl River Delta region.
